EXPERIENCE

Associate Software Engineer | Fidelity Investments

Jun 2024 - Present

- Spearheaded cloud transformation initiatives within a global Center of Excellence, establishing secure, cost-efficient engineering standards and bridging software development with cloud operations to enable scalable enterprise financial platforms.
- FinOps AI Orchestration:** Engineered a cloud-native FinOps AI Bot to analyze 10,000+ hybrid-cloud instances; implemented automated rightsizing and spot-instance scheduling, yielding \$2M+ in annual cost savings.
- Cloud Center of Excellence:** Architect new cloud and AI-driven solutions, lead POCs for high-priority and emerging services, and define architecture guidelines and best practices adopted by application teams.
- AI Infrastructure & DevOps:** Developed and maintained Terraform modules for Kubernetes Service for multiple AI and business use cases and designed a data mesh for AI-native application development and adoption
- Backend:** Designed and optimized RESTful backend services with efficient database schemas and indexing, improving performance and ensuring reliable handling of concurrent enterprise-scale requests.
- Full Stack:** Built a complete mock AI enabled trading engine and exchange with Angular, Java, Springboot, Rest, SQL and deployed on AWS cloud and developed an IPO application engine used by 70,000 enterprise employees

Co - Founder | DataHedge

Jan 2022 - Jun 2023

- Led algorithmic trading desk managing ₹5 crore; built automated trading strategies across equities, commodities, crypto; recognized as **Top 50 student startup** in Tamil Nadu - TNSI22.
- Engineered a high-frequency trading system; implemented machine learning models for portfolio optimization, price prediction and news sentiment based automated trade executions
- Architected low-latency trading infrastructure with real-time data ingestion, backtesting frameworks, and risk management modules, enabling scalable and resilient automated execution systems.

Founder Office Intern | Predixion AI

Oct 2024 - Dec 2024

- Engineered end-to-end ML pipelines processing 100K+ minutes of call data, improving debt collection compliance by 60% using TensorFlow and Python.
- Designed and prioritized product features and functionality enhancements, collaborating directly with the CEO across engineering, compliance, and business teams to translate strategic objectives into scalable product architecture and execution roadmaps

Machine Learning Intern | Esamudaay

Aug 2023 - Mar 2024

- Enhanced user experience for 10,000+ customers through ONDC-compliant e-commerce platform, reducing cart abandonment by 25% and contributing to \$8M valuation
- Supported application launch on Google Play, assisting with release coordination, testing validation, and operational readiness for expansion across multiple Indian cities.

EDUCATION

B.Tech-Computer Science and Business Systems | Sastra University | 8.7 GPA

2021 - 2025

Honors in Artificial Intelligence | Class XII - 92% | JEE - 92% | Class X - 95%

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, JavaScript, SQL

AI & ML Systems: TensorFlow, PyTorch, NLP, Sentiment Analysis, ML Pipelines, Model Optimization, AI Infrastructure

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, CI/CD, Terraform, Jenkins, Ansible

Frameworks: Spring Boot, Angular, React, REST API

Core CS: Data Structures & Algorithms, Object-Oriented Programming, System Design, Operating Systems

Database: MongoDB, DynamoDB **Tools:** Git, Unit Testing

LEADERSHIP & IMPACT

- President | **Consulting club** - Solved business cases for Shark Tank-funded startups and coached over 50 students
- Entrepreneurship Coordinator | **Entrepreneurship Cell** - Led All India E-Cell network with 2,500 members
